Private Health Insurance Statement 1 July 2016 to 30 June 2017

Keep this statement – use the following information to complete your 2017 income tax return

The table below provides details of your 2016-2017 private health insurance policy. Each adult covered on the policy will receive their own statement showing their share of the premiums eligible for rebate and the rebate received for the policy.

The Australian Government determines the way the rebate is calculated and applied to premiums. There are two different rebate percentages for the 2016/17 tax year, one from the 1 July 2016 to 31 March 2017 and one from 1 April 2017 to 30 June 2017. Where more than one line of information has been provided, the information from each line must be entered separately at the corresponding labels on your income tax return at **Private health insurance policy details.**

You will need to nominate a tax claim code when completing the Private health insurance policy details section of your tax return. **Read the tax return instructions** to determine the tax claim code appropriate for your situation.

If you have any questions about completing your income tax return, visit ato.gov.au/privatehealthinsurance or seek advice from your tax agent.
